

# 45th Annual Seminar of The American Academy of Cardiovascular Perfusion

## Fireside Chats

### Thursday, February 8, 2024

- 9:30- AM – 11:30 AM
- Everything ECMO
    - *Collaborate with colleagues about the intricacies of what goes into all parts of ECMO*
  - Pediatrics
    - *An open forum to discuss standards of care and new practices in the field*
  - Perfusion accidents
    - *If you can think of it, it has either happened to someone else or will to you. Let's share and learn.*
  - Simulation: from low to high fidelity
    - *See what other centers are doing to build and grow this important technique (Combo: chat and simulation)*
  - Students Only Forum
    - *A forum to meet and greet for students only*

### Friday, February 8, 2024

- 9:30- AM – 11:30 AM
- Pediatrics and Pediatric ECMO
    - *What's new, what's not and what struggles do we face as the specialty moves forward*
  - Shortages
    - *From human resources to material resources*
  - Simulation: from low to high fidelity
    - *See what other centers are doing to build and grow this important technique (Combo: chat and simulation)*
  - What they didn't teach us in school / Dealing with stress / Work life balance
    - *Round table discussion on situations you never anticipated after graduation, and how to navigate*
  - Women in Perfusion
    - *Collaborate with some special situations and challenges of other women in the field*

### Saturday, February 10, 2024

- 3:00 PM – 5:00 PM
- ECMO and VAD Challenges: Scenarios and Transports
    - *Let's learn from each other as transports (intra and inter hospital) are becoming their own new specialty.*
  - Electronic Medical Records: The Good, the Bad, and the Glitchy
    - *See how centers are tackling and incorporating this evolving standard of care.*
  - Industry and CCP
    - *What it's like to go from clinical to industry, combine both, and maybe back again with all the challenges faced.*
  - Myocardial Preservation
    - *Everything from the OR, to NRP to DCD*
